Estimada Cristina:

Tal como acordamos en conversación telefónica, te remito adjunto el modelo de cuestionario correspondiente al Playa Muiño Vello, así como las Cartas que el M.A.P.A. envía a tanto a los Armadores seleccionados en el muestreo como a las Cofradías correspondientes.

Para cualquier duda o aclaración puedes ponerte en contacto conmigo en el teléfono que se cita más abajo.

Agradeciéndote la colaboración prestada,

Un saludo,

Marta Macías Sanjurjo

ATT: AGUSTIN

Nota: Cada vez que se empieza una casilla, aunque sea una repetición hay que hacer los lances mínimos que le correspondan, según la normativa, Cesar ya se lo pregunto a Blanca en la campaña anterior, también le pregunto a los demás y me dicen lo mismo.

Tengo pensado dar dos lances más aquí, y lo más seguro que luego vaya hacer la 28-30 y 90-95, si no mejora más que por aquí, vendre para la 30-35 y 85-90. para después terminar los últimos lances en la 28 y 85.

Saludos : Carlos.

# World FDI Prospects

According to the 2005 UNCTAD's Global Investment Prospects Assessment (GIPA) survey, FDI experts, transnational corporations (TNCs) and investment promotion agencies (IPAs) expect that FDI will continue to grow in the short and medium term.

The main findings of the survey are as listed below:

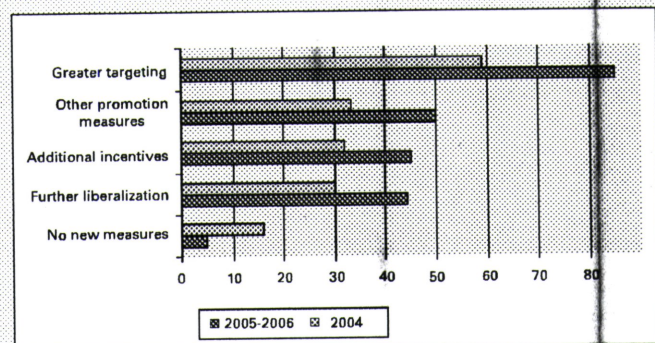

- ※ Latin America will maintain its recent FDI recovery;
- ※ FDI flows to Africa will remain stable at a low level;
- ※ Developed countries as a group will experience some FDI recovery;
- ※ The United States are expected to remain the most attractive destination for FDI in the developed world, while expectations are less bright for the major European economies;
- ※ China is seen as the most attractive business location by 85% of experts and 87% of TNCs as shown below:

Responses from Experts			Responses from TNCs		
Rank	Country	%	Rank	Country	%
1.	China	86	1.	China	87
2.	USA	55	2.	China	51
3.	India	42	3.	USA	51
4.	Brazil	24	4.	Russia	33
5.	Russia	21	5.	India	20
6.	UK	21	6.	France	16
7.	Germany	12	7.	Germany	13
8.	Poland	9	8.	UK	13
9.	Singapore	9	9.	Thailand	11
10.	Ukraine	9	10.	Canada	7

Source: UNCTAD FDI Prospects, 2005-2008

- ※ In the short term, IPAs expect the US to be also by far the most important source of global FDI flows, followed by the United Kingdom, Germany and China;

- ※ Industries expected to be at the forefront of FDI growth are computing/ICT, public utilities, transportation and tourism-related services in the services sector; electrical and electronic products, machinery and metals in the manufacturing sector; and mining and petroleum in the primary sector;
- ※ The outlook for the services sector will continue to be more positive than for the manufacturing or primary sectors;
- ※ Production is expected to be the corporate function most likely to be relocated;
- ※ Growth of offshore outsourcing in services will continue, with logistics and support services to be the functions most likely to relocate offshore, followed by distribution and sales;
- ※ The majority of IPAs intend to increase the number and range of their policy measures over the next two years. In particular, given limited resources, most IPAs intend to employ a more targeted approach to investment promotion as shown below:

Source: UNCTAD FDI Prospects, 2005-2008

The overall results of the survey point in the same direction: the FDI recovery will continue and recovery is increasingly fuelled by investment in developing countries. However, the overall mood is one of cautious optimism due to some threats which may weaken the momentum, namely protectionism, reduced growth in industrialized countries, the financial instability of some major economies, global terrorism and the volatility of petroleum and other raw material prices.

# Measures to Boost the Economy

On August 30th, 2005, the DPM and Minister of Finance & Economic Development, Honourable Rama Sithanan made a statement on *Setting the Stage for Robust Growth*, in the National Assembly. In that Statement, investment facilitation and promotion were given a place of great prominence. The measures announced by the DPM

constitute a major review of our approach to investment facilitation and promotion as well as a new direction to investment policy.

Following are the key measures announced by the DPM:

※ To speed up the implementation of projects a Fast Track Committee chaired by the Prime Minister will be set up to iron out all impediments which have lately delayed the implementation of innovative and broad-scoped investment projects.

A first meeting of the Fast Track Committee was held on 8th September 2005. Three important projects totalling investments of the order of MUR 12 billion have already been reviewed. Acting as coordinator between various ministries and agencies, BOI prepares the list of projects and identifies main issues prior to the discussions.

※ A standing Investment Climate Improvement Committee will be set up. Its work will be based on the findings of the World Bank's Investment Climate Assessment and the recommendations of the Committee chaired by Honourable Xavier Duval. This Committee will provide practical solutions to the difficulties that entrepreneurs face in starting and running their business. It will focus its attention on four main areas, namely governance, infrastructure, innovation & skills, and finance.

The Committee will set the priorities for reform of the investment climate through regular meetings with the business community, including SMEs and other stakeholders. The aim is to allow for effective and productive interactions in areas which require broad-based, cross-sector strategies aligning various policies as well as close collaboration with the business community.

※ The Silent Agreement principle will henceforth be applied for the approval of projects. Investors will proceed with the implementation of their projects by default if the authorities do not respect the agreed time-limit for the processing of their projects. Consequently, this new principle will squarely place the onus for permits, licences and approvals on the authorities. A systematic review of existing procedures is required across the board.

This activity will be facilitated by a Process Reengineering Task Force which will assist Government institutions and local authorities in reengineering their processes rendering them

result-oriented and business friendly. The initiative will help eliminate duplication regarding the submission of applications for permits by applicants. Guidelines will, therefore, be set to enhance the service level expected by investors.

※ All the schemes of incentives which presently apply to various economic sectors will be reviewed and harmonized. This will result in the creation of a homogeneous and coherent framework that will be a better tool for investment promotion.

※ The whole process of duty exemption is being reassessed and a clear procedure will be put in place. A general approval approach will be adopted so as to expedite internal procedures within the Ministry of Finance, while joint Ministry/BOI/Customs Committee on duty exemption will be given greater decision-taking powers within set parameters. A web-based facility for on-line submission and processing of applications is being developed at the BOI and is expected to be operational in one month's time. Same-day approval in the case of fully-documented and clear-cut applications will be a fact.

※ On investment promotion, the Investment Climate Assessment Committee will carry out a thorough assessment of the operations of the BOI and FSPA.

※ A unique brand identity will be created for Mauritius. The purpose is to sell, in the simplest but strongest possible manner, a single, standard and coherent image of the country as an investment centre offering up-market tourism. This strategy will balance out the world perception of Mauritius. The country will be seen as an investment and business location as well as a prime tourist resort.

※ There will also be a shift from an incentive-driven to a targeted approach for the promotion of projects. This will require a portfolio of viable projects ready for implementation. Well-defined projects will be marketed abroad. Projects attracting a number of investors will be awarded to the best candidate on a competitive tender basis.

※ Government will review the Integrated Resort Scheme (IRS) scheme and improve it at five levels, namely:

- |    |  |
|----|--|
| 1. | More benefits will accrue to the community where the project is being developed;                             |
| 2. | The competitiveness of the scheme will be improved;  |
| 3. | There will be greater flexibility in the implementation of the scheme;                                       |
| 4. | The window of opportunities will be broadened so that small landowners may get a fair chance to participate; |
| 5. | Promoters of IRS projects must open the shareholding to the public.  |

※ The Government will prepare a blueprint on the development of shopping tourism to increase the level of spending by tourists. A well thought-out strategy will help develop a powerful shopping brand.
